

The CDC provides [instructions on its website for how to make several types of homemade face coverings](#), including from a t-shirt and a bandana without any sewing required.

A sampling of manufacturers selling face coverings is listed below. The City is providing this list as a courtesy resource for the community, and by providing this information the City does not expressly or by implication endorse any of these vendors. Availability, in-stock, and shipping times may vary. This list is not a comprehensive—there are many other companies and individuals selling face coverings online.

If you are a Culver City business that is producing face coverings or other personal protective equipment and would like to appear on this list, please [email the City to be added to the list](#).
